Registration now open for the Region's Largest Aerospace Conference, PNAA ADVANCE 2023

Lynnwood, WA, October 3rd, 2022 – PNAA announces registration has opened for the region's largest aerospace conference. [Pacific Northwest Aerospace Alliance ADVANCE 2023](#): INNOVATE, COLLABORATE, ACCELERATE celebrates its 22nd anniversary in North Seattle, February 6-9, 2023. The event will once again be held at the Lynnwood Convention Center at the heart of Aerospace Manufacturing in Snohomish County.

"Aerospace is facing an unprecedented period of change. We are seeing challenges in workforce and supply chain, as well as many opportunities with increasing production rates for Commercial and Defense aviation and emerging technologies in Electric Aviation, Space, UAM and more. As Aerospace forges a path forward in this ever-changing environment, it is more important than ever to gather at events like PNAA ADVANCE 2023 to gain knowledge of the latest projections and technologies, and network with our peers," said PNAA CEO & Executive Director, Nikki Malcom.

"This is also a time for industry to come together, rekindle partnerships and forge new business relationships. 2023 has a lot in store for the industry and we are seeing rapid changes in the manufacturing base. We will focus on how the industry can INNOVATE and COLLABORATE to ACCELERATE our progress."

Leading speakers from top Aerospace OEMS and Tier 1-4 companies will provide their latest projections and insights on the changing aerospace landscape and what these changes mean for suppliers. Industry-leading aerospace analysts will return for individual presentations, interactive panels, and an exclusive Thought Leadership Dinner.

Richard Aboulafia, an internationally-recognized aerospace expert from AeroDynamic Advisory will return as a featured speaker to present his annual "Global Aerospace Market Outlook," which includes

an analysis of the opportunities and challenges that lie ahead, as the coming year will be full of changes and a pivotal time for many aerospace manufacturers.

Dr. Kevin Michaels, President of AeroDynamic Advisory will return to reveal his perspective on what the manufacturing supply chain looks like in the year ahead. With over 30 years of aviation experience, Michaels is a globally-recognized expert in the aerospace manufacturing and MRO sectors and has significant expertise in business-to-business marketing and strategic planning.

Attendees will learn the latest in these areas from top industry experts discussing the most recent information and trends, as well as environmentally sustainable manufacturing, the latest in aerospace design and technology, advanced manufacturing methods and more.

In addition to a speaker lineup of top aerospace executives and industry analysts from around the globe, this year's event features a revamped exhibit hall of relevant companies and organizations displaying the most current and innovative products and services. The conference is also coupled with a bonus day for factory tours and an exclusive evening International Reception, where one can meet key contacts from aerospace companies from all over the world. "PNAA's famed B2B Fair will happen again this year, where manufacturers get to meet with OEMs and top tier companies who are looking for their next suppliers," said PNAA's Director of Operations, Lisa Childs.

"We will be partnering with Northwest Aerospace News Magazine again to feature our advertisers in a special two-month 2023 PNAA Conference Edition issue which has over 22,000 digital and print readers," she said. The deadline to be included in the 2023 PNAA Conference Edition issue is Dec 15th.

PNAA's Annual Aerospace Conference brings together hundreds of aerospace professionals, typically representing over 350 companies from more than 30 states, multiple Canadian provinces and over a dozen countries outside North America. The annual event takes place at the Lynnwood Convention Center. Conference early bird discount rates will expire December 15. Registrants can save \$250 just by registering early.
