FOR IMMEDIATE RELEASE

Harper Engineering Wins 2023 Boeing Supplier of the Year Award

Renton, WA, August 24, 2023 – Harper Engineering is excited to announce that the company has been selected as a 2023 Supplier of the Year by Boeing in their Supply Support and Services category. This makes Harper a 2-time winner of this prestigious award.

For the past 55 years, Harper Engineering has supported the aerospace interiors industry by designing, testing and building intricate mechanisms and composite parts. The first part designed by Harper was for the iconic 747 aircraft and Harper has been working to be a trusted business partner of The Boeing Company ever since. As Bob Hazel, Chairman of the Board of Harper Engineering noted “It is truly an honor to be selected by Boeing as one of the top aerospace companies in the world. We are very proud of our company, and receiving this award is an affirmation to all of us that stellar performance and great customer service is noticed.”

For more information on this award and Harper engineering, please visit their website at www.harperengineering.com or check them out on LinkedIn at <https://www.linkedin.com/company/harper-engineering-company/>
